Hudson Ridge Wellness Center Joins The Green Business Bureau

Hudson, NY – The Hudson Ridge Wellness Center is paving the way for future growth that will make the Westchester County healthcare facility more competitive. Their commitment to going green will considerably strengthen brand value and increase both employee and customer retention. Most of all, they believe it is the right thing to do.

With this mission in mind, Hudson Ridge Wellness Center recently joined the Green Business Bureau, which is a national membership organization that uses an online assessment to certify green businesses. The center plans to utilize GBB's online tools to track and monitor their green initiatives as the project progresses.

Among Hudson Ridge Wellness Center's key environmental initiatives:

- Re-use and refurbish existing materials whenever possible
- Maintain the natural setting of the property
- Use LED and energy saving lighting and energy efficient products and appliances wherever possible

Hudson Ridge Wellness Center is currently in the process of renovating and restoring a specialty hospital located on 20+ acres in beautiful Westchester County, NY.
